EGB Cumbria
Winter Hacker Mileage

Through the winter months we often take what daylight (and weather) we have to get out and about to enjoy the company of our 4 legged partners in crime. This winter we will be running a Winter Hacker Mileage challenge for everyone to log their hacks (in km). Open to Full & Associate Members.

You can collect mileage from any ride (at home or organised event) between the dates of **1st November 2025 & 30th January 2026**. This award is for horse & rider combination so if you are entering multiple horses (or a horse has multiple riders), each combination would have their own record.

All rides must be submitted by **Friday 30th January at 6.00pm** so that the awards can be presented at our awards evening. Everyone who enters will receive a completion award and there will be a prize for the horse & rider combination who cover the most distance throughout the winter months.

To claim your mileage you will need to log your distances and provide evidence of these through some form of tracker, Equilabs, Garmin, Strava, whatever you use is fine (just a screenshot showing the date and distance is all that's needed). There is no minimum speed.

To submit your entry, you will need to go to **THIS LINK**, complete the details and upload a screenshot of your ride. Ensure that the date and the distance is visible - we will do the rest. You can upload photos of your rides as well if you are happy for us to use these on our website and/or social media
